**Job Ref: Software Developer
(Any Field: Front End, Back End, Web Design)**

Dear Hiring Manager,

This letter is to express my interest in the job posted on your website and in the IT group in Facebook for an experienced, detailed-oriented, front-end web developer. As you'll see, I have at least more than a year experience in coding websites containing web applications and etc using modern technologies (Markup / Programming Language) like HTML, CSS, and JavaScript especially in ReactJS.

In my previous experience at Applicable Limited based in Auckland, New Zealand, I developed several web-based applications for a project management software client. These applicationstracked and managed information technology project information for several of the client within Auckland, New Zealand based clients. I was involved in the design and development process for all applications, and I managed enhancement requests after each rollout.

Building state-of-the-art, easy-to-use, user-friendly websites and applications is truly my passion and I am confident enough that I would be an excellent addition to your corporation / organization. In addition to my knowledge based, I actively seek out new technologies and stay up-to-date in terms of industry trends and advancements.

I've attached a copy of my resume detailing my experience, expertise and link to my own website

I can be reached anytime via my cell phone, +639224583015 or by email at ikigamidevs.15@gmail.com

Thank you for your time and consideration, I look forward to speaking with you about this opportunity

Franz Monzales

Franz Monzales

Applicable Ltd
PO Box 5007
Wellesley Street
Auckland Central 1141
New Zealand

13 November 2019

TO WHOM IT MAY CONCERN

Franz Monzales was employed (via a Davao based BPO owned by one of our shareholders, Dash 10) as a Web Developer, working on a variety of web applications for us from **1 October 2018 to 31 October 2019**.

He primarily worked with common web technologies such as HTML, CSS, JavaScript, JQuery, React.js, Code Igniter and Laravel.

Franz was enjoyable to have in the team and displayed a very good level of technical skills relative to his time working in the industry. We also enjoyed hosting him in New Zealand for a week during his time with us. Unfortunately, largely due to a downturn in our workload, by October 2019 we ended up without any further projects for Franz to work on.

Please feel free to contact me as a referee to discuss his fit for specific positions, though only at the point where you're thinking to make him an offer.

Yours sincerely

John Jones
Director of Applicable
